

DishSupa

Premium Machine Dishwashing Liquid for Hard Water

DESCRIPTION

DishSupa is a premium machine dishwashing liquid. DishSupa will remove oils and fats efficiently from plates, pots and pans and leave them with a fresh clean fragrance. DishSupa will eliminate the build up of unsightly scale build up in warewashing machines.

FEATURES & BENEFITS

- Leaves plates with a brilliant finish;
- Formulated for fast and effective cleaning;
- An economical product;
- Designed for use in areas up to 500ppm water hardness;
- Decreases energy costs caused by the insulating effect of scale build up;
- Does not allow scale, that is not readily visible, to deposit on crockery that absorb stains;
- Does not allow scale to build up in wash and rinse arms, allowing efficient washing and rinsing.

USE DIRECTIONS

To eliminate contact and overuse of DishSupa it is recommended that an Auto Feed Dispenser is used. The installation and set up of this equipment will be carried out by a Liberato representative and an approved contractor. Servicing and chemical strength for the dish washing machine will be carried out by a Liberato representative.

Recommended dose rates for the various water hardness are:

100ppm as CaCO ³	1.0ml / litre of water
200ppm as CaCO ³	2.0ml / litre of water
300ppm as CaCO ³	3.0ml / litre of water
400ppm as CaCO ³	4.0ml / litre of water
500ppm as CaCO ³	5.0ml / litre of water

Pack sizes/product codes:

5L – DS005
20L – DS020
