

TIMBER PRESERVER

Lantos Timber Preserver is a naturally superior environmentally safe lanolin based coating for protecting timber furniture, timber decking, jetties, piers, boardwalks and many other timber structures. Lantos Timber Preserver is a non-toxic, biodegradable, and easily applied with spraying equipment. Ideal for applications where timber needs protection in environmentally sensitive areas and waterfronts.

Timber Preserver	Product Code
5 Litre Jerry	DT610\0005
20 Litre Cube	DT610\0020
200 Litre Drum	DT610\0200

WIRE ROPE LUBRICANT

Lantos Wire Rope Lubricant is designed to penetrate to the rope core to reduce friction in wire ropes to enable wire ropes to run smoothly while coating the wire rope with lanolin to inhibit corrosion. Lantos Wire Rope lanolin based lubricants are thinner, clearer, and less prone to solidify than heavy lubricants. In addition, they are effective when applied in light coatings and suitable for use in continuous automatic lubrication systems. A coating of Lanolin lubricant seals the wire surfaces from the atmosphere, reducing corrosion and rusting.

20 Litre Cube	WR120\0020
200 Litre Drum	WR120\0200

CITRA-PREP CITRUS DEGREASER

Lantos Citra-Prep is a powerful, fast acting natural degreaser ideal for removal of glues, fats, grease, bitumen, oils, waxes and carbon deposits. Lantos Citra-Prep provides superior cleaning for stainless steel, aluminium and is the preferred product to removal of Lantos Lanolin products.

Citra Prep Citrus Degreaser	Product Code
300gm Aerosol	CP250\PP-0300
750mL Trigger Bottle	CP250\SP-0750
5 Litre Jerry	CP250\0005
20 Litre cube	CP250\0020
200 Litre Drum	CP250\0200

LANOLIN RELEASE AGENTS

Lantos lanolin release agents form a liquid coating designed for use as a mould release agent on formwork surfaces in a concentrated or pre-mixed option. Provides a barrier as a means of separation between the formwork. Can be used on steel, timber, plywood, PVC, rubber, polypropylene, plastic & fibreglass. Woolube release agents provide a clean positive release, does not interfere with the surface detail, and prolongs timber formwork. Ideal for construction sites in environmentally sensitive areas and as protective barrier for concrete forming and pumping equipment.

Release Agent - Concentrated	Product Code
3 Litre Jerry	RA130\0003
5 Litre Jerry	RA130\0005
20 Litre Cube	RA130\0020
200 Litre Drum	RA130\0200

Release Agent - Premixed	Product Code
20 Litre Cube	RA135\0020
200 Litre Drum	RA135\0200

"NATURAL SOLUTIONS"

Lantos lanolin products have been designed by nature and rigorously tested for centuries. For many centuries ancient European warriors and mariners used Lanolin from wool grease to protect and lubricate their weaponry, leather and timber tools.

Lantos protective compounds incorporate anhydrous lanolin in a special combination of extremely efficient non-toxic corrosion inhibitors, penetrants and conditioning agents providing long term protection of all types of metals against rust acids, alkalines and salts.

Lantos products never evaporate or completely harden. Instead, Woolube forms a surface skin when exposed to air or water and remains soft in contact with metals – providing a non-stop “reservoir” of active anti – corrosion inhibitors.

Lantos greases and lubricants are food grade approved and have dielectric capabilities for contact with electrical circuits. This natural, non-toxic product has virtually limitless applications.

Applications include:

- ✓ Metal fabrication
- ✓ Welding ant splatter
- ✓ Leather protector
- ✓ Chain lubricant
- ✓ Marine equipment protection
- ✓ Irrigation plant and pipes
- ✓ Chains, gears and pulleys
- ✓ Marine environments
- ✓ Auto rustproofing
- ✓ Door mechanisms and locks
- ✓ Anti-seize coating
- ✓ Timber preservation

LANOLIN GREASE

Lantos Lanolin grease is a thick, tacky grease with high load capabilities that will not wash out under most conditions, from underwater to general use. For heavier protection or rejuvenation, melt and apply with a paint brush. Woolube Lanolin Grease will provide excellent results as an anti-corrosive, thread anti-seize and lubricant.

LG100 Grease	Product Code
300ml Tub	LG100\300
450ml Grease Gun Cartridge	LG100\C450
1 Litre Tub	LG100\0001
20 Litre Pail	LG100\0020
200 Litre Drum	LG100\0200

LANOLUBE HEAVY DUTY

Lanolube Heavy Duty is a thick sprayable form of Woolube grease which dries to a heavy duty grease film with the same characteristics as the grease for more robust applications as well as providing an excellent fluid displacement, penetrant and lubricant in one multi-purpose product.

Lanolube Heavy Duty	Product Code
300gm Aerosol	LL735\PP-0300
750mL Trigger Bottle	LL735\SP-0750
5 Litre Jerry	LL735\0005
20 Litre Cube	LL735\0020
200 Litre Drum	LL735\0200

LANOLUBE MULTI-PURPOSE

Lanolube Multi-Purpose is a sprayable form of Lantos Grease which dries to a fine grease film offering the same characteristics as the grease as well as providing an excellent fluid displacement, penetrant and lubricant in one multi-purpose product.

Lanolube Multi Purpose	Product Code
60gm mini Aerosol	LL730\PP-0060
300gm Aerosol	LL730\PP-0300
750mL Trigger Bottle	LL730\SP-0750
5 Litre Jerry	LL730\0005
20 Litre Cube	LL730\0020
200 Litre Drum	LL730\0200

LANOSEAL CORROSION PROTECTOR

Lanoseal Corrosion Protector is a high-performance lanolin fluid film the forms a low tack coating to resist dust build up while forming a moisture tight seal around substrates that will resist alkali, acid, atmospheric moisture, and salt corrosion. Lanoseal Corrosion Protector is highly robust when and dry will not flake or chip and retains its elasticity making it suitable for car underbodies as a corrosion protector. Non-Conductive to 40kV.
