

PRODUCT INFORMATION

Libbzyme

Non Toxic Environmentally Friendly Odour Neutraliser

DESCRIPTION

Libbzyme is a versatile, environmentally friendly and safe to use water based odour neutraliser with a neutral pH. It may be used for odour control treatment in holding ponds, grease traps and septic systems.

FEATURES & BENEFITS

- Neutral pH enabling very safe to use product;
- Phosphate free;
- Biodegradable > 80% within 14 days;
- Non hazardous, safe to use product;
- Advanced formulation that removes odours;
- Environmentally sound product.

USE DIRECTIONS

Holding Ponds: Add 8 litres of Libbzyme per acre surface area of pond and apply via spray or distribute in as many parts of pond as possible. Initially do this twice weekly for 2 weeks then once per week thereafter.

Odour Control: Dilute Libbzyme 50ml per litre of water for spray application.

Degreasing: Firstly add 4 litres of Libbzyme to the tank and follow up with 250mls per person using the system per week if required.
